

FOOTSCRAY PRIMARY SCHOOL

Foundation 2019 Transition Program

Dear Parents and Carers,

I would like to invite you and your child to attend our Foundation Transition Program. Starting school is an important time for children and families and at Footscray Primary School we believe a positive start to school begins with a successful transition process. Our Foundation Transition Program aims to support children through this process, as well as building the excitement and motivation to learn within our school community.

The planned transition activities have been designed to support our new students with building strong connections to their new school environment. Students will be supported in developing positive relationships with their peers and their teachers.

Whilst students are engaged in these activities, families are invited to attend parent workshops that will explore a range of school readiness topics. These workshops aim to build a strong partnership between home and school, one that will continue to develop through your child's time here at Footscray Primary School. I strongly encourage all our families to attend these workshops.

If you have any questions, please do not hesitate to contact myself or the office on 9687 1910 or via email footscray.ps@edumail.vic.gov.au

I look forward to welcoming all our families to the Foundation Transition Program.

Stacey Richards
Acting Principal

Wednesday 24th October	2.30pm—3.30pm	Welcome to Footscray Primary School
